Big Carnival Prizes Won Here

Finish was written last night to the big Second Ward Carnival and Funfest when at 3:30 Friday morning the games were stopped & the left overs of the two nights of fun and frolic packed away. The crowds were not as large either night as past years have been, but it was a good natured crowd, and they spent their chips freely.

The house was decorated in gay colors, and the way the prizes were displayed made one anxious to sit in and try and win. One or two new features were introduced, and the fastidious tastes of every one could find something to interest them.

The quilts were never nicer than this year and during the two evenings more than a dozen were disposed of. These were real beauties, and winners of them had something to be proud of. A large Cedar Chest was also disposed via the raffle route and will grace someones boudoir now.

In the drawing for the Grand Prizes, held at 1 a.m. each evening Frank Shaw had the lucky ticket Wednesday night, and Reid Walker was the winner last evening. A great deal of interest was shown in the bulletin board where the Door Prize winners were posted up each evening, and it is a safe bet that 95 p.c. of all the Door Prize money went right back into the offers of the Carnival for extra chips that the winners didn't expect to win when they left home. \$100 each night was given away in this manner.

Side shows, Turkey Shoot, & what not were all in operation and all received very good patronage. Chick Walker and his Aces from Cardston were present both nights to supply the rhythm for those who wanted to dance, and the floor was well filled all the time.

The bankers had a busy night taking in the cash and dishing out the chips, and the boxes from the various booths were going back and forth all night. The crowd was well behaved and orderly and there were no unpleasant experiences at all during the two evenings' fun.

Raymond has a new Wool Carding business now. Read the ad. in this paper.

Relations between China and Japan are becoming very strained and open warfare would not be a very big surprise.

When you have anything to sell, for rent or lost, a want ad. is the cheapest and most effective workman you can get. Try one next time.

To shoot a deer is considered a real feat, but to hit one with a stone and then kill it with an axe before it recovered, was the experience of two Michigan men Twinnings and Hooper.

RESOLUTION OF RESPECT FOR MRS. ELLEN RALPH

From the Raymond Women's Institute

Where as Divine providence has seen fit to call from our midst one of our most loyal members, Be it resolved that we, the members of the Women's Institute, express our regret at the passing of our dear member Mrs. Ellen Ralph, who has been so faithful to our organization, a most congenial neighbor and a friend to all.

Be it resolved that this Institute also extend their heartfelt sympathy to the bereaved family. And pray God to comfort and help them in this, their hour of sorrow.

E. P. TANNER HONORED AT SOCIAL

A very enjoyable social evening was held in Magrath Monday evening in honor of Earl Tanner, retiring Chairman of the Stake Genealogical Committee who has been released from this work and asked to labor as Stake Mission President for a time.

John T. Steele, new Chairman conducted the program, which consisted of music, readings, games and speeches. Pres. T. Geo. Wood, who with his Counselor Heber F. Allen and their wives represented the Stake Presidency, and Pres. Wood voiced his appreciation of the good work done by the retiring Chairman, and stated that he was sure he would carry on just as good in his new calling. On behalf of the Stake and Ward Committees, John T. Steele presented the guest of honor with a beautiful Waterman's pen and pencil set, to which Elder Tanner appropriately replied.

Amongst those present from Raymond were: Mr. and Mrs. C. W. Selman, Mr. and Mrs. J. Golden Snow, Mr. and Mrs. T. T. Mendenhall, Mrs. T. W. Meldrum, J. U. Allred, Mr. and Mrs. Arthur Dahl, Mr. and Mrs. Paul Schneider, Mr. and Mrs. S. B. Williams, Mr. and Mrs. S. I. May, Mr. and Mrs. I. B. Roberts and the members of the Stake Presidency already mentioned, and possibly others whom we have overlooked. A most enjoyable evening was spent which concluded with refreshments.

NEWS NOTES

California has nothing on us for weather. Let's enjoy it while we may and worry about the cold when it gets here, if it comes?

The beautiful weather is enjoyed by everyone although it causes some labor for stockmen in providing water for their herds. It is certainly stretching out the feed though which is appreciated by everyone.

Lord Tweedsmuir, Governor General of Canada spent two days the first of this week in Edmonton where he made several public appearances before his return to Ottawa.

Mrs. Grant Card left Raymond Monday morning for a visit with her sister and other relatives who live in Portland. She will likely be away for most of the winter.

Quite a number of Picture Butte people were here Thursday evening, including Mr. and Mrs. J. T. Simpson, Mr. and Mrs. J. Ross Humphres, Mr. and Mrs. Ross Salmon, Mr. and Mrs. Dick O'Brien and probably a number of others we missed in the huge crowd.

Henry DeVer 21 year old Mennonite lad of Coaldale, wa fatally injured at 5:45p.m. Wednesday evening on the road just north of Coaldale, when struck by a hit and run driver, who never even slowed up to see what he had done. With his brother he was walking along the road. A piece of lamp bracket with the word Buick on it is the only clue the police have to commence investigation of the case. The car apparently was travelling very rapidly as the boys moved out of the road as quickly as possible after seeing the lights, but the one lad was struck and died three hours later in the Coaldale Hospital.

Synopsis of Medical Contract

The Rate fixed between the Doctor and Family who live at home is Eighteen (\$18.00 for the year, payable in advance.

1st—Professional attendance in case of illness or injury with reasonable promptness.

2nd—Major and Minor operations, providing assistants and anaesthetist in accordance with the rules of good surgical practice, excepting operations requiring the services of a specialist; provided, however, that a charge of Twenty Five (\$25.00) Dollars additional fee be added in case of Major, and a charge of Five (\$5.00) Dollars likewise for Minor operations.

3rd—Such laboratory examinations as may be carried on by a general practitioner in his office for the diagnosis of disease.

4th—Attendance on maternity cases including pre-natal and post-natal care. (Notification being given 60 days in advance of confinement.)

5th—Medical advice regarding

the health of any or all members of the family at least once a year if desired.

The Doctor does not agree to treat venereal disease, insanity, or diseases due to drugs or alcohol, neither do dental work, or diseases of eye, ear, nose or throat, excepting for the latter three, as a general practitioner does in general practice.

He does nothing contrary to the code of the ethics of the Medical profession. The only drugs furnished are those used in general practice.

All children residing at home and dependent on the family is included in the family contract.

A mileage fee of 50c. per mile is charged one way for out of town practice.

After the first year being paid up, fees may be paid quarterly or half yearly in advance if desired.

If a contractee drops out after one year, it costs him 50p.c. more to be reinstated the coming year.

People who pay now, get thirteen months service.

NEWS NOTES

Paul H. Redd has been attending a Poole Elevator Convention this week, and Mrs. Rolfson has been substituting for him in the High School.

S. J. Shepherd, Alberta's new Judge, was sworn in officially Wednesday morning by Justice J. R. Mitchell before a crowded Court House in Lethbridge.

We had several items that were simply crowded out of last issue. We hope our readers will accept this apology for their non-appearance. They are being printed this week.

McIntyre bred cattle finished by C. R. Daniel won the prize for the best carlot of steers at the Toronto Royal this week. Western stock and western feed seem to have the stuff it takes to win prizes.

The weather looked stormy Saturday night and a few drops of rain fell. The skies cleared however and Sunday was bright and clear, the breeze turning quite keen toward evening Sunday night.

A number of Raymond people were in Magrath Monday night for the social in honor of Elder Earl Tanner, upon his leaving the Stake Genealogical Committee to work as Stake Mission President.

Mission President Earl Tanner and C. E. Allred, District President, with Elder Marion Bingham, visited the branch at Tyrrell's Lake last Sunday. Misses Bingham & Gurney of Magrath were there the latter playing a Trumpet solo. A very enjoyable meeting was the result.

A very pleasant party was held at the home of Mr. and Mrs. Ellis S. Heninger on Wednesday evening, honoring her on her retirement from the Stake Relief Society Board. Most of the Stake Board members with their partners were present and greatly enjoyed the evening.

Ray Renfrow of Coaldale, is held on a charge of manslaughter in connection with the death at Coaldale Wednesday evening of Henry DeVeer. He and his brother were leaving for Oregon to attend their father's funeral James, was allowed to continue, but after letting Ray out on bail he was refused permission to go to the funeral services. He was remanded for eight days.

Canada enjoyed the best tourist season since 1929 this last summer. It is our opinion that with surfaced and dust free roads, our tourist business would increase at least twice each year from now on for the next five years at least. After driving thousands of miles on surfaced roads, one just naturally hates to pull off onto gravelled grades where dust and flying pebbles are the ban of the motorist every mile.

A TRIBUTE OF LOVE

(By Amanda Nilsson
(A tribute to my beloved friend Mrs. Ellen Ralph)

Gentle spirit, O why have you left us?
We weep and we mourn for you here,
Without your sweet presence to cheer us
This world seems so dreadfully dear.

So kind and so thoughtful of others,
So patient, so tender and true
You had ne'er a foe in this world dear,
To know was to truly love you.

We loved you because of your kindness,
Because of your goodness of heart,
Because you so oft thought of others:
O why did you from us depart.

But why do we mourn Gentle Spirit?
We know that our loss is your gain
And that you now are safe in heaven
Freed from sorrow, from care and from pain.

You have finished your work on this earth dear.
The Master has said, 'Tis well done'
He has welcomed you back to his presence
He has said, 'Tis enough, you may come.'

It seems that we all have a mission.
A time for to come and to go
A work we're expected to finish
And things we're expected to know.

Then help us, O Heavenly Father,
Give us strength our crosses to bear
That in thine own due time
A position in heaven we'll share.

15 Ton Club at Picture Butte

HISCHOOL THROUGH A KEYHOLE.

(By Denton Young Brewerton)

Hello Mr. and Mrs. Raymond Alberta, this is your hi-school commentator, "Brew" Young speaking and bringing to you hi-school news. "lets go to Press"

FLASH:—

After a popular vote, made by the teachers, Ikey Hironaka was listed as Public Post Number One for the entire school.

In every class Ikey attends, he has an argument with the teachers. If Miss Kittitz says one thing, then Ikey in his timid way explains to her that she is wrong. Of course Miss Kittitz agrees with him instantly. In algebra, Mr. Merrill can hardly write the answer to a problem in the board, before Ikey is vaying his hand in the air and telling everyone in the room that Mr. Merrill is wrong, wrong. He thinks that because he has a different answer, Mr. Merrill must be wrong. Betting is going round the room that Mr. Merrill will throw Ikey through the window before the year is over.

Mr Merrill, please wait until there is about a foot of snow on the ground. It's very awkward, eating dinner standing up.

FLASH:—

Here is news that is not an advertisement. Pat Lacy gives tap dancing lessons at the Hi-School, every Friday and Saturday and they really must be lessons. Dick Kinsay and Eldon Peterson go about school in what you would call a tap-dance.

Boys are you sure it's just the tap-dancing or is it the teacher. Better be careful Dick you don't want Fernella to get mad at you. She is terribly jealous.

FLASH:—

Jack Nilson is really sitting on top of the world. Kathleen Matlin is attending school here, while the dentist fixes her teeth. Kathleen here is a little lip for you. Because gold is scarce and hard to get tell Dr. Tall to wait until the day you come to fill your teeth with gold. I don't want you to come home from a date with Jack and go to admire your gold fill and find it isn't there. Jack might have heard of that old saying: "Thars Gold in them Thar teeth." I only hope that he left the tooth.

This is "Brew" Young saying good night and "I'll be seeing ya"

In a letter addressed to the Government at Edmonton, the Chambers of Commerce of Edmonton and Medicine Hat, and the Boards of Trade of Lethbridge and Calgary asked the Government to stop the circulation of stamped scrip as it had proven a failure and was not accomplishing the end that was hoped for it at first.

Ward Conference was held in the Raymond First Ward Sunday evening. Encouraging reports were made by the heads of all of the auxiliaries of the Ward and a good time enjoyed by the audience.

Walter Walls, Calgary, former apprentice in the Odgen Shops of the C.P.R. at Calgary has just completed a miniature of C. P. R. locomotive No. 2800, built to exact scale and weighing 200 pounds. It will develop a speed of 10 miles per hour and will pull the weight of eight persons. It took the spare time of 4 1/2 years, totalling 6,000 hours to build the model which contains 50,000 distinct parts.

The 15 Ton Beet Club members and their partners were guests of the Canadian Sugar Factories at Picture Butte on Wednesday last, when the activities of the day included, dinner at the Dining Room at 12:30, the crowd being so large that it required two sittings to care for them. A very vendid meal was served, made even more welcome to the second table through having to wait.

When dinner was over the groups of twelve or fifteen each were conducted thru the mill by guides and officials, and the special features of this new and strictly modern sugar refinery explained. Some of the processes in the making of sugar between the new plant and the local one formed a decided contrast and the march of science and engineering in the field of efficiency clearly shown.

After all had been taken through the mill a short program was held in the Dining Room, where short talks were made by Manager Wood, Supt. Taylor, Phil Baker, A. E. Palmer and E. T. Rogers, President of Canadian Sugar Factories, Ltd., who has spent most of the fall between the two plants.

The day was a decided success and the visitors voiced their appreciation of the Company officials for the interest they con- tinue to show in more and better beets from the growers of Southern Alberta.

A good crowd was present at the High School Initiation Ball last Friday evening and a very enjoyable time is reported.

Our Clubbing Offer still holds good. These magazines make fine Gifts and can be mailed anywhere in Canada without extra cost. Come in and read the list over.

FIRST WARD PLAN BIG TIME DEC. 11 and 12TH.

The Raymond First Ward are planning to entertain the people of Raymond and district in a big way on Friday and Saturday evenings, Dec. 11th and 12th. The entertainments are being held for the purpose of creating a building fund for the new Ward Chapel, which is now quite definitely decided on and plans are being formulated in mind, if not on paper as yet as to just what the Chapel will look like. Bishop Hicken and counselors Wing and Snow have Committees well organized and it is this Committee that will sponsor the Chicken Supper and Dance Friday night, and a Rummage Sale and Dance Saturday night. They have set the minimum price at 50c. per plate for supper, but one may give what ever they feel like over 50c. and it will all go towards the building fund for the Ward. It is hoped that people of the Town and district will rally to the support of the First Ward and make this initial step a success. A good program will be carried out during the dinner and remainder of the evening.

There will be booths for refreshment sales, etc., and the following organizations & individuals have charge of the various items: The Sunday School will have a Fish Pond, the Rimmage Sale, the Mutuals will sell candy, pop corn punch, etc., Mesdames O'Brien, Kirkham, Fisher and Hicken will have an Old Dutch Market, and other booths by parties not yet chosen. Mrs. Rolfson will be in charge of the Dinner, as she has handled this several times in the past.

Don't forget the dates and everyone be there.

BUY ALBERTA PRODUCTS

Alberta is today in the midst of a great experiment. Many say it will work, and just as many say it won't. At any rate, one fact that enters vitally into the future of Alberta, despite the Government that may be in power, is the utilization within Alberta of as many of her natural products as is possible. To this end, and tied in completely with the ultimate success of the present Government, plans is the support by Albertans of Alberta products.

This must be a matter of education. Recently we bought a broom. All we did was ask the storekeeper for a broom. It suited us and we took it home. When we got home we examined the broom, but the only mark of identification on it was "Made in Canada." Now, we might just as well have asked for and received a broom from the Taber broom factory, and thereby helped Alberta growers who are

growing broom corn. Of course one broom would not have made very much difference, but if every broom buyer in the Province had the same idea, it would mean the sale of a great many more Alberta brooms than are sold now by our merchants. As far as quality is concerned it is safe bet they would be as good, and possibly, better than brooms from other provinces.

We are not unmindful of the fact that much of our produce has to be shipped out. It is a recognized fact too that national and international trade are essential to the well-being of the country and province. At the same time if you were raising pigs and turkeys, the local butcher would hardly expect you to purchase fresh pork and Xmas turkeys from him. So it is with our Province produced articles. While there will always be inter-provincial trade, our neighbors in Saskatchewan or Manitoba, would hardly expect us to buy their brooms, when our next door neighbors in Taber were producing Alberta made goods.

Without any effort to list completely all the Alberta products we may obtain, a few that come to mind are Broder Cannine Co. products, Broom, G. W. G. goods, the products of the Calgary Saddlery, Alberta Sugar in nearly every kind, meat packing products by the score, Alberta oyster shell, butter, cheese, and so on, and in

the near future Logan Knit products from the new Factory in Lethbridge. What a splendid gesture it would be for every Albertan to ask for and insist on Alberta made goods. You say, well only the manufacturer would profit. Don't be sort-sighted. Increased consumption would mean increased production, which would mean decreased unemployment, increased purchasing power, greater demand for raw products, better demand for the products of the farm, and generally better conditions all around.

An education program on the part of the Government and manufacturers in this respect would be a fine thing.

Dr. and Mrs. Leech and Miss Walscott left Raymond Monday afternoon for a few days visit in Coaldale after which they will spend a holiday at the Pacific Coast before taking up permanent residence anywhere.

NEWS NOTES

Elder H. Ostlund, of the Lethbridge Stake Presidency, was the speaker at the 2nd Ward C. nealogical meeting Sunday evening, speaking on his experiences on his trip to Old Mexico a few months ago. A large audience was present, and greatly enjoyed the experiences so graphically related by the speaker.

The following forces have tended recently to push wheat prices up: Italy continues to import wheat freely—Denmark cancels taxes on import grain—Seedling backward backward in Balkans and reduction in acreage expected—United States buys Argentina corn heavily—Finland needs large imports of rye—Expected Spain will require large quantities wheat. Prices have tended to declining—Danubian countries concentrating on permanently holding export markets for hard.

Announcing THE FORD V-8 FOR 1937

The Quality Car in the Low-price Field

V-8
65 HORSEPOWER
Maximum Performance
with Good Economy

Bore, 3.062 in. Stroke, 3.75 in.
Displacement, 221 cu. in.

Two Engine Sizes - One Wheelbase

AND A NEW LOW PRICE

V-8
60 HORSEPOWER
Good Performance with
Maximum Economy

Bore, 2.6 in. Stroke, 3.2 in.
Displacement, 136 cu. in.

THE New Ford V-8 for 1937 is the most beautiful Ford car ever offered. It is built in only one size -- with one standard of roomy comfort and modern appearance. But you may have either the improved 85-horsepower V-8 engine for maximum performance -- or the new 60-horsepower V-8 engine for maximum economy. The smaller engine makes possible a lighter car -- a lower priced car, with lower operating costs -- and permits still more people to enjoy the smoothness, quietness and reliability of the V-type 8-cylinder engine.

Improved 85-horsepower V-8 engine -- Drive it and watch the speedometer!

More than three million owners are now enjoying the superior performance of the Ford V-8 engine on the road. When you drive the 1937 Ford with the 85-horsepower V-8 engine, you are master of a power plant that

gives everything you can possibly demand in speed and acceleration. Today it is a better engine than ever -- with a better cooling system and new smoothness. Yet improved carburetion enables it to deliver its thrilling performance with unusually low gasoline consumption.

New 60-horsepower V-8 engine -- Drive it and watch the fuel gauge! The new 60-horsepower V-type 8-cylinder engine is almost an exact replica of the 85 -- except for size, weight and power. It delivers V-8 smoothness and quietness -- even at speeds up to 70 miles an hour -- with gasoline mileage so high that it creates an entirely new standard of economy in modern motor car operation.

We invite you to see this new Ford car at your Ford dealer's showroom, and arrange to drive one equipped with the engine that fits your own needs.

FEATURES

APPEARANCE—A newly designed car. Headlamps recessed in fender aprons. Modern hood hinged at the back. Larger luggage space. Spare tire enclosed within body. Completely new interiors. Slanting V-type windshield opens in all closed cars.

BRAKES—New Easy-Action Safety Brakes, of the cable and conduit control type. "The safety of steel from pedal to wheel." Self-energizing -- car momentum is used to help apply the brakes. Tests show that about one-third less pedal pressure is required to stop the car.

BODY—Not an ounce of wood used for structural strength. Frame structure all steel, sheathed with steel panels -- top, sides and floor. All are welded into a single steel unit of great strength.

COMFORT AND QUIET—A big, roomy car. Extra space in the body, not taken up by the engine under the hood. Comfort of the Centre-Poise Ride further increased by smoother action of the long-tapering springs, with new pressure-lubrication. New methods of mounting body and engine make this a quieter car.

Shop windows up and down town reveal a dazzling array of useful and attractive Xmas gifts. Early shoppers have the advantage of greater selection and wider ranges of sizes and colors.

EXPERIMENTAL STATION LETHBRIDGE

WEEKLY LETTER
—O—
FORAGE CROPS

In last week's letter the writer mentioned that the next few weekly letters would be a series of reviews of each department of work at the Experimental Station, briefly setting out the work which is done and the service which is rendered. This week's letter, the first of this series, will deal with the work in Forage Crops.

Under irrigated conditions at Lethbridge it is possible to grow almost all kinds of forage crops that can be grown in

other parts of Canada which receive an ample supply of rain fall. The shortness of the growing season, however, and the cooler nights, necessitates the choosing of early varieties of the later maturing crops. As plants respond quite differently to irrigation, and as this Station is the only one in the Dominion Experimental Farm System located on the prairies where irrigation farming is practised, experimental work with forage crops is one of our most important activities.

Farming under irrigation is becoming more intensified each year and more attention is be-

ing given to obtaining increased yields from smaller acreage. The Station conducts tests annually to determine the best yielding varieties of alfalfa, corn, roots and other crops for winter feeding of live stock. Pasture mixtures are also tested to determine the grasses or combination of grasses and clover that will provide permanent pastures of maximum carrying capacity. Pasture management, which is equally as important as the selecting of proper mixtures, is also receiving attention. Sweet clover has become an important crop in this district and it is being tested from the standpoint of hay, pasture and soil building. A forage crop nursery was started several years ago where crops of minor importance, but which show some promise of eventually filling a small place in our scheme of farming, are given preliminary trials.

For several years experiments have been conducted to determine the reason why alfalfa so frequently fails to set seed in the Lethbridge district, and to build up a strain that will set seed under these prevailing conditions. Seed production of other forage crops may prove to be a profitable line of endeavour on certain irrigated farms and a few of the more important ones are being investigated from that standpoint.

On the dry land portion of the farm drought-resistant grasses such as crested wheat grass, brome and western rye grass are tested alone and indifferent combinations. Corn is also looked upon as one of the most important crops for dry lands and tests are conducted annually to determine the most suitable varieties.

NEWS NOTES

The British Government's \$500,000,000 loan at 2½ p.c. interest was oversubscribed in less than one hour when opened for subscriptions Tuesday. There seems to be money in quantities still available for good security.

Have you ever told yourself this story, "Well, I'm not going to spend much for Christmas this year." And then you go right out and spend more than ever before and feel right good over it all.

Declaration of codes for various industries will mean increased prices. This will be fine so long as the purchasers are able to buy. But, if the increase in prices mean less purchases, then the codes will boomerang on the people they were designed to help. These things have a great many different angles.

G. L. WOOLF COMMISSIONED FOR IMPORTANT WORK

Provo, Utah, Nov. 17.—Golden L. Woolf, M.A., principal of Brigham Young University training school has recently been commissioned by Dr. Frank S. Harris, President of the B.Y.U., to study conditions and objectives in the various high schools of Utah state. He will visit each high school in the state, and make a survey of various activities, and conditions obtaining in secondary education in Utah, with a view to bringing data and information to the Brigham Young University training school which will help the university to co-ordinate its work with the work of secondary education in the state. This is purely a B.Y.U. project, and is an advanced movement planned by B.Y.U.

Mr. Woolf was formerly a teacher on the Cardston high school staff, when Police Magistrate J. W. Low of Cardston was principal. Later Mr. Woolf became principal of the Magrath high school. While at Magrath he was called to preside over the French Mission for the L.D.S. Church, with headquarters in Paris. He spent three and a half years there, then upon his return, came to B.Y.U. where he completed his studies for his master's degree. He is now engaged in graduate work for his doctor's degree.

wholesome, toothsome, good

Just selected berries and pure sugar—nothing more. Highly desir- able as filling for layer cakes, rolls, tarts, pies—and with toast.

Wool Growers Attention!

G. Whitaker & Co. Ltd., of Brantford, Eng., and Peterborough, Ontario, are pleased to an- nounce a change in their Personal Representative in south Alberta. They have secured the services of J. M. Workman of Cardston, to represent them in the district formerly represented by Mr. P. V. Lewis. G. Whitaker & Co. take this opportunity to announce their appreciation to their many pat- rons for past favors, and assure them that future patronage will be appreciated.

G. Whitaker and Co. are prepared to ad- vance pre-shearing loans against next year's wool clip through their representative.

For information get in touch with

A New Shipment Just Arrived

Brewerton's Limited

NEWS NOTES

Gene Pierson was able to be back at work at King Motors the middle of the week.

Get those Xmas Cards today. Ensure early delivery and sat- isfaction.

Lee and George Brewerton were Lethbridge visitors Mon- day afternoon.

Only 22 more shopping days before Christmas. Have to get busy.

Miss Ellen Gourley of Picture Butte, is spending a few days here with her sister Mrs. Bill Zobell.

While Gene Pierson has been in hospital for the past ten days Shirley Kinsey has been taking care of the auto repair work at King Motors.

Don't delay another day in ordering your Christmas Cards. They cost no more than they will next week, and you are as- sured of early delivery and sat- isfaction.

As a Life Insurance Policyholder

You Share in the Ownership of These Valuable Assets

Government Bonds First Mortgages Municipal Bonds
Industrial Securities Public Utility Bonds

YOUR savings in Life Insurance—which help to form the Assets of the company in which you are insured—not only protect you and your family but also make you a part owner of high-grade securities.

For example—as a Life Insurance policyholder, you share in the ownership of Government and Municipal bonds. These bonds provide for the construction of highways, railways, canals, schools, water and sewage systems, and other important public enterprises.

You likewise have a definite financial interest in Canadian industries, and in Canadian homes and farms.

The Life Insurance companies, which your enterprise and thrift have built up, acting on behalf of yourself and 3,500,000 other policyholders, invest the Assets you have entrusted to them. In making these investments, they exercise the utmost care to secure safety with a satisfactory yield.

Of the combined Assets in the Life Insurance Companies operating in Canada, the major part is invested in Government and Municipal bonds and debentures. Large amounts are also invested in first mortgages on care- fully selected city, town and farm properties, and in loans to policyholders.

You can take satisfaction in the fact that Life Insurance companies in Canada have faithfully discharged their obligations. Even in periods of greatest financial stress, every obligation guaranteed by their policies has been fulfilled.
